

Position: Technical Sales and Application Specialist – Fresher

Experience: 0–1 Year

Location: Tamilnadu, Karnataka, Andhra Pradesh, Telangana

Industry: Life Sciences | Biotechnology | Research Instrumentation

Job Summary:

We are looking for enthusiastic and passionate fresh graduates in Life Sciences to join our growing team as Technical Sales & Application Support Executives.

This role is ideal for candidates who are eager to explore both the sales and technical aspects of the biotechnology and life sciences industry. You will engage with customers such as medical colleges, research institutes, and universities, promoting life science consumables and benchtop instruments while providing product demonstrations, training, and application support.

This position offers an excellent opportunity for learning, training, and structured career development in a professional and technically driven environment.

Key Responsibilities:

Sales & Client Engagement:

- Promote and sell products in Molecular Biology, Protein Biology, and Cell Biology.
- Visit academic, clinical, and research institutions to introduce products and generate leads.
- Support client meetings, demonstrations, and presentations in coordination with senior team members.

- Handle the complete sales cycle — from inquiry, quotation, and negotiation to post-sales follow-up.
- Maintain and update daily activities, client interactions, and visit reports in the CRM system.
- Build and maintain strong, long-term relationships with clients within the assigned territory.

Technical & Application Support:

- Provide technical assistance to customers and the sales team on life science reagents and instruments.
- Assist in preparing technical presentations, training materials, and product documentation.
- Conduct product demonstrations, workshops, and customer training sessions.
- Respond to basic technical queries under the guidance of senior technical staff.
- Stay up to date with product knowledge, laboratory workflows, and market trends.
- Support seminars, conferences, and roadshows organized within the territory.

Requirements:

- Bachelor's or Master's degree in Biotechnology, Life Sciences, Microbiology, Biochemistry, or related disciplines.
- 2024 or 2025 pass-outs preferred; 2026 final-year graduates (Male candidates only) may also apply.
- Strong interest in sales, communication, and client interaction within the life sciences field.
- Excellent communication, presentation, and interpersonal skills.
- Proficiency in MS Office (PowerPoint, Excel, Word) and basic CRM usage.
- Willingness to travel frequently within the assigned region (AP, Telangana or Karnataka).
- Possession of a two-wheeler with a valid license is preferred.

Why Join Us:

- Gain hands-on exposure to leading life science technologies, consumables, and instruments.
- Learn directly from experienced professionals in both technical and sales domains.
- Participate in seminars, technical workshops, and conferences to enhance professional growth.
- Opportunity for career advancement towards Technical Specialist, Product Support, or Sales Management roles.
- Be part of a dynamic, knowledge-driven team contributing to advancements in life sciences research.
