

Position: Technical Sales & Service Engineer – Field Support

Experience: Freshers (0–1 Year)

Locations: TamilNadu, Karnataka, Andhra Pradesh, Telangana

Qualification: Biomedical Engineering

Industry: Biomedical Engineering, Life Sciences, Medical Research Instrumentation

Job Summary

We are seeking energetic and motivated fresh graduates in **Biomedical Engineering** to join our field sales and service team. In this role, you will engage with customers in hospitals, diagnostic labs, medical colleges, and research institutes to promote and provide technical support for biomedical and life science equipment.

This position offers comprehensive training, hands-on exposure, and strong career growth opportunities in the medical and research instrumentation industry.

Key Responsibilities

- Learn and promote biomedical and life science instruments (e.g., microscopes, centrifuges, biosafety cabinets, thermal cyclers, spectrophotometers, freezers, incubators, water baths, Elisa readers/washers, and other benchtop equipment).
- Conduct client visits to introduce products, generate leads, and build professional relationships.
- Support in installation, calibration, preventive maintenance, and basic troubleshooting of equipment.
- Assist in product demonstrations, technical presentations, and training sessions for customers.
- Maintain accurate sales and service reports in CRM.
- Coordinate with senior engineers and sales teams to ensure smooth order execution and customer satisfaction.
- Keep updated with product knowledge, service protocols, and market trends.

- Travel regularly within the assigned territory for both sales and service support.
-

Requirements

- Bachelor's or Master's degree in **Biomedical Engineering** (2024, 2025 pass-outs preferred & Final year 2026 graduates – Only Male).
 - Strong interest in technical sales, biomedical equipment servicing, and customer interaction.
 - Good communication skills and problem-solving attitude.
 - Willingness to travel frequently within the assigned region.
 - A two-wheeler with a valid driving license is preferred.
-
