

Mechanical Intern – Design (2D/3D)

Location: Delhi

Duration: 6 Months

Working Days: Monday – Saturday

Role Overview:

We are looking for a **Mechanical Design Intern** with a strong mechanical background to support our design and engineering team. The candidate will work on **2D/3D design, assemblies, and product development tasks**.

Key Responsibilities:

- Create and modify **2D drawings and 3D models**
 - Work on **assembly design and detailing**
 - Apply **GD&T (Geometric Dimensioning & Tolerancing)** in drawings
 - Assist in **design validation and documentation**
 - Support the team in **prototype development and testing**
 - Collaborate with cross-functional teams for design improvements
-

Requirements:

- Pursuing or completed **Mechanical Engineering (B.Tech)**
 - Basic understanding of **engineering drawings and assembly concepts**
 - Knowledge of **GD&T principles**
 - Hands-on experience with:
 - **SolidWorks**
 - **CATIA**
 - Strong problem-solving and analytical skills
 - Willingness to learn and work in a fast-paced environment
-

Preferred:

- Prior internship/project experience in mechanical design
- Exposure to manufacturing processes

Note:

- This is a **full-time internship (6 months)**
- Candidates should be available to work **on-site in Delhi (Mon–Sat)**
